01. Our Vision & Mission

Vision

The vision of The Child Support Foundation is dedicated to improving the lives of underprivileged people. We believe everyone deserves to be treated with dignity and given their basic human rights, including food, shelter, healthcare, and education.

Mission

The main purpose of The Child Support Foundation is to do good and help others in various ways. We want to make this world a better place by helping out people who are less fortunate than us.

We are an independent, non-governmental and non-profit organization working for the holistic development of neglected and needy children. Growing up in poverty, kids face tough challenges: hunger and malnutrition, limited access to education and medical services, gang violence, social discrimination and isolation. But it doesn't have to be that way. Together, we can transform the lives of children in poverty. It starts right here, right now when you help a child. Education is the most important tool for overcoming poverty and unemployment, and it should be prioritized. Additionally, it benefits the commercial environment and the entire country. As a result, the higher a country's educational education, the better its development prospects are perceived to be. Additionally, this education benefits a person in a variety of ways. It enables a person to make a more informed and rational decision by putting their knowledge to use. This increases a person's chances of success in life. As a result, education also plays a role in facilitating the development of a more fulfilling way of life. Child Support Foundation is an NGO registered under Indian public trust act. This trust is formed with an intention of supporting neglected and needy children in Karnataka we at child support foundation mainly focus on over all holistic development of under privileged kids.

CHILD SUPPORT FOUNDATION In conclusion, I am incredibly grateful for the opportunity to serve as a Trustee of this NGO and to be a part of an organization that is dedicated to making a difference in the world. Together, we can continue to bring hope, support, and opportunity to those who need it most. I am inspired by the words of Mother Teresa, who said, "It's not how much we give, but how much love we put into giving." Child support foundation goes beyond merely providing financial assistance; it strives to create lasting, sustainable programs that empower children to break the cycle of poverty. I am confident that, through our collective efforts, we can thrive and positively impact the lives of countless children under our care.

There are more than 10000 people who are taking care of patients who are supposed to be family members of admitted patients in government hospitals at Bangalore. Most of these people are from outside, especially from rural areas and belong to economically weaker sections.

They are taking care of these patients with empty pockets and struggling to fill their empty stomach. However admitted patients will get food from the hospital but people who take care of them are in deep trouble. CHILD SUPPORT FOUNDATION understands this situation and launched a program called HUNGRY HATAV.

Every day (Mon to Sat) our vehicle will go to these hospitals with food pockets and distribute them to needy ones. This is not a one day activity this will be the daily program.
