CHILD SUPPORT
FOUNDATION

MEDICAL HAPPY STORY

YOUR HEALTH IS OUR PRIORITY

Nearly 1.73 million children die in India every year due to lack of treatment. Child Support Foundation works with the children from the most marginalized, economically deprived families to support them in their treatment of critical, acute & chronic diseases. The parents usually do not have a required amount of money to spend on the treatment of such surgeries. Child support foundation sponsors treatment of these underprivileged children and helps them to get back to their normal lives.

HUNGRY HATAAV

LETS SHARE
AND CARE

HUNGRY HATAAV

There are more than 10000 people who are taking care of patients who are supposed to be family members of admitted patients in government hospitals at Bangalore. Most of these people are from outside, especially from rural areas and belong to economically weaker sections. They are taking care of these patients with empty pockets and struggling to fill their empty stomach. However admitted patients will get food from the hospital but people who take care of them are in deep trouble.

www.childsupportfoundation.org

HUNGRY HATAAV

CHILD SUPPORT FOUNDATION understands this situation and launched a program called **HUNGRY HATAAV**. Every day (Mon to Sat) our vehicle will go to these hospitals with food packets and distribute them to needy ones. This is not a one day activity this will be the daily program. Initially we are feeding about 400 peoples in a day. Now through donor support we extend it 350 - 400 food packets. We would like this program to take it to the next level and target beneficiaries at least 1000 lunches a day. Initially we will distribute food packets at **INDIRA GANDHI CHILDREN HOSPITAL** later we love to spread to **Nimhans, Victoria, Bowring hospitals**.

www.childsupportfoundation.org

HUNGRY HATAAV

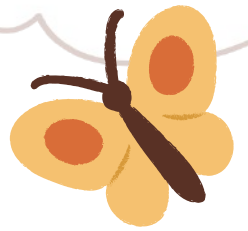

Before we were distributing the food packets in auto rikshaw when we increased the count of food packets we purchased a new Maruti Omni van to distribute the food packs

EDUCATIONAL SUPPORT

www.childsupportfoundation.org

EDUCATIONAL SUPPORT

Education plays an important role in the development of an individual and makes him a knowledgeable citizen. It is the Education that makes an individual self-reliant, helps to suppress social evils, and contributes towards the development of the society and nation as a whole. Education helps in unraveling the mystery of nature. It enables us to understand and improve the working of our society. It creates conditions for a better life.

Education brings out the capabilities to fight injustice happening in society. Every individual has the right to get Education. As a responsible citizen of India we have a responsibility to take care of children's who are willing to study. So please join your hands for this Educational support.

orphanage support

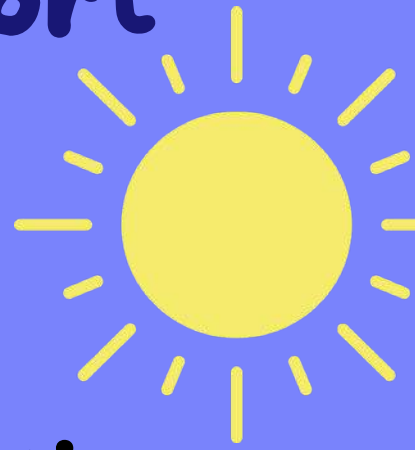

www.childsupportfoundation.org

orphanage support

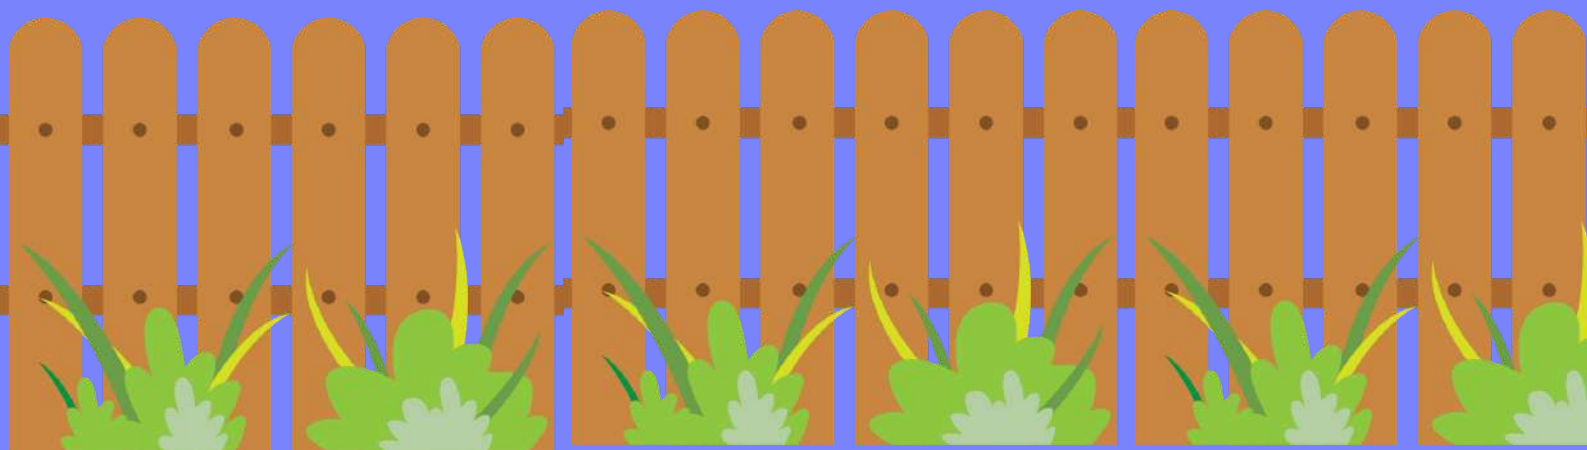

An orphanage is a residential institution devoted to the care of orphans, Semi Orphans children whose biological parents are deceased or otherwise unable or unwilling to care for them. Biological parents, and sometimes biological grandparents, are legally responsible for supporting children but in the absence of willing to care for the children, they become a ward of the state, and orphanages are one way of providing for their care, housing and education.

orphanage support

Child support foundation as an enabling organization supports children in the day and night shelters. Under this program, we are supporting SEVALAYA which is located near TATAGUNI Bangalore. It is a shelter for 20 childrens .
